## 1. 25 Female Students Conclude the Young Leadership Program

The College of Science at Imam Abdul Rahman bin Faisal University, represented by the Agency for Studies and Community Welfare, concluded the Young Leadership Industry Program, a program with the Association for the Care of Orphans in the Eastern Province (Binaa). The Dean of the College of Science, Dr. Amal bint Lafi Al-Otaibi, stated that one of the training programs offered by the College of Science seeks to create leaders, which shows the college's keenness in community participation, and would enhance the confidence of beneficiaries and improve their leadership skills.

This program is part of series of courses and achievements carried out by the college through its agencies and in cooperation with the relevant authorities. Dr. Ibtisam bint Muhammad Abatain stated that it is not hidden from all of us that young leaders play an important role in our world today in all fields. Considering that youth are the biofuel for any society in terms of giving, creativity and enthusiasm to build. The interest in developing young leadership competencies and investing in what is available has become a very important matter, because of the high hopes in youth when it comes to management and production. The program aims to promote the leadership and cognitive skills of twenty-five female secondary school students over a period of two weeks in order to improve their leadership personality and enhance their ability to solve problems and develop their skills in social innovation. She added that during the closing ceremony, initiatives for the female students participating in the program were presented, which are projects that simulate the 17 goals of the United Nations in the field of sustainable development, which are among the axes of the vision of the Kingdom of Saudi Arabia 2030.

The head of the program, Rehab Ali Al-Dosari, indicated that the Kingdom of Saudi Arabia lives according to a strong and authentic social fabric that enhances its culture in various aspects of social life. (The Young Leadership Industry Program) is considered as a smart environment that provides all these requirements by transforming their ideas into practical initiatives and facilitating mechanisms that keep pace with the latest developments and lead them to contribute more to the economic and social process and improve their quality of life in society. The initiatives presented by the participants will contribute to raising the quality of the services provided to society in all areas.

## 4. Academic Talent Program

On Sunday, 2/1/1444AH, the talent program launched at Imam Abdulrahman bin Faisal University, in cooperation with King Abdulaziz and his Companions Foundation for Giftedness and Creativity "Mawhiba." The IAU hosts 216 male and female students from various cities all over the country under the supervision of a selection of experts and specialists in scientific and skill fields from the university's faculty members. The program takes place over three weeks. It enables students to learn advanced sciences and skills and build scientific and practical experiences according to global methodologies.

The scientific program includes five scientific pathways: anatomy and physiology, engineering design, biomedical sciences, renewable energy, encryption, and information security. The Skills Program aims to develop leadership skills, social impact, creative thinking, and innovation. It also builds to enhance students' skills and refine their personalities through genius tasks and medals of excellence in addition to enrichment events, which include two main events: "Our homeland lives in us, and we live in it" and "The professions of the future."

In light of this, the General Supervisor of the Program and Head of the Male Student Program, Dr. Mohammed bin Saleh AlKathiri, stressed the vision and mission of (Mawhiba), as well as its values, are in line with the Saudi Vision 2030.

The IAU, in turn, participates in laying the foundation stone by employing its human and material capabilities for years. In addition, the IAU embraces this program and empowers students who promise talent under the patronage and attention of His Excellency the President of the University, Dr. Abdullah bin Mohammed Al-Rabish, and a follow-up by His Excellency the Vice President for Academic Affairs, Dr. Ghazi bin Abdul Rahman Al-Otaibi.

The President of the Female Students Programme, Dr. Mashaal bint Mishal Al-Namshan also indicated that the IAU contributes to the preparation of a creative generation in the belief that the rehabilitation of talented students is the key to the nation's advancement and prosperity and discovering abilities and investing in them has a significant impact on the achievement of human development.
